KNOW THE CODE – Skier/Snowboarder Safety:

"Your Responsibility Code" was established in 1966 by the National Ski Areas Association as a code of ethics for all skiers & riders on the mountain. Ultimately safe skiing and snowboarding on the mountain is each person's responsibility. Following "Your Responsibility Code" will help all skiers and snowboarders have a safer mountain experience.

Your Responsibility Code

Always stay in control, and be able to stop or avoid other people or objects. Part of your responsibility, as a skier/snowboarder is to be in control at all times on the slopes. Be aware of your speed and the speed of those around you to maintain safe skiing on the slopes.

People ahead you have the right of way. It is your responsibility to avoid them. When approaching other skiers and snowboarders on the slopes, remain a clear distance from them when passing. Watch for skiers making quick turns to the right and left in front of you. Keep distance from the skier or snowboarder in front of you to allow for enough room to stop or swerve if they make a sudden turn or stop.

You must not stop where you obstruct a trail, or are not visible from above. If you need to take a rest or wait for friends on the slopes, select a spot on the trail where you can be clearly seen by someone approaching from above. Do not stop in the middle of a trail—move to the side.

Whenever starting downhill or merging into a trail look uphill and yield to others. Keep an eye out for skiers up the hill as you enter a trail. It is your responsibility to make sure the trail is clear before entering or beginning again.

Always use devices to help prevent runaway equipment. Safety straps and ski stops are required to make sure a lost ski or snowboard does not injure another skier.

Observe all posted signs and warnings. Keep off closed trails and out of all closed areas. Obey the closed trail signs. Trails are closed due to avalanche danger, unstable conditions or exposed rocks and terrain.

Prior to using any lift, you must have knowledge and the ability to load, ride and unload safely. Stay within your ability and board lifts carefully and safely. Ask lift operators for help if unsure about loading and unloading procedures.

DETAILS: The White Horse Inn

The White Horse Inn is a modern 26-guest-room inn and bed-and-breakfast, built 1978, at the entrance to Sugarbush's Mount Ellen ski area.

In the fall of 2013, the Inn underwent extensive renovations, with new energy efficient windows and high-tech boiler. Plus, the fire system has been totally upgraded. Most lighting in the Inn has been converted to LED bulbs, saving more energy. Breakfast is served daily at the Inn and fresh baked cookies each evening. Enjoy local crafted Vermont beer and wine in the fireplace and dining room areas of the Inn.

Bridges Resort Condos are located, a short shuttle bus ride to the lifts. Each unit features complete kitchen, color, cable TV, most units have washer/dryer, stereo/VCR & all have fireplace. Your stay includes a membership to the Sports Center with indoor pool, hot tub, sauna, and racquet sports. The Bridges has its own private bar & lounge area for your use after a day of skiing or riding, this is a great spot for the group to meet.

Sugarbush is a classic Vermont ski resort. Located by quaint towns, Sugarbush excels in great snow and varying terrain. In addition to the natural snow that Sugarbush gets, the snowmaking system is continually being improved. One of the biggest improvements is the addition of a lift connecting Sugarbush's two mountains. Because of the improved lifts the capacity for moving people has dramatically increased which takes out lift line and gives skiers and riders much more vertical on Sugarbush's 115 trails and glades. Skiers and riders have long been in love with Mt. Ellen's lofty 4135' summit and its 2650' vertical drop. Now, thanks to the addition of the resort's new Green Mountain Express, a Poma high-speed detachable quad, when this season begins you'll have the fastest access in Sugarbush history to those great heights and superb terrain.

Your Responsibility Code

Always stay in control, and be able to stop or avoid other people or objects. Part of your responsibility, as a skier/snowboarder is to be in control at all times on the slopes. Be aware of your speed and the speed of those around you to maintain safe skiing on the slopes.

People ahead you have the right of way. It is your responsibility to avoid them. When approaching other skiers and snowboarders on the slopes, remain a clear distance from them when passing. You must not stop where you obstruct a trail, or are not visible from above. If you need to take a rest or wait for friends on the slopes, select a spot on the trail where you can be clearly seen by someone approaching from above. Do not stop in the middle of a trail—move to the side.

Whenever starting downhill or merging into a trail look uphill and yield to others. Keep an eye out for skiers up the hill as you enter a trail. It is your responsibility to make sure the trail is clear before entering or beginning again.

Always use devices to help prevent runaway equipment. Safety straps and ski stops are required to make sure a lost ski or snowboard does not injure another skier.

Observe all posted signs and warnings. Keep off closed trails and out of all closed areas. Obey the closed trail signs. Trails are closed due to avalanche danger, unstable conditions or exposed rocks and terrain.

Prior to using any lift, you must have knowledge and the ability to load, ride and unload safely. Stay within your ability and board lifts carefully and safely. Ask lift operators for help if unsure about loading and unloading procedures.
